AUDITORS' REPORT

Moultonboro, N. H., Feb. 7, 1927.

We have this day examined the books of the School District of Moultonboro, N. H., and find them correct and properly vouched.

FRED P. RICHARDSON,
FRANK S. LOVERING,
Auditors.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Moultonboro:

The year 1925-26 was particularly pleasing to those in close touch with the school conditions. There was but one unsatisfactory spot and that was at the Center Harbor school, where there were 165 cases of tardiness to 21 for all of the rest of the town.

The Ambrose school had its third year without a tardy mark and had the highest percentage of attendance of the five schools—97% or 3% better than the average for the State.

Moultonboro is fortunate in that it has now within easy reach an excellent high school. The Quimby School trustees at Sandwich are furnishing excellent teachers and equipment for practical high school course. The cost per pupil is about three times the tuition rate.

The lists given below are of much importance and I hope that the citizens will read them carefully. school attendance is one of the measures of a school's efficiency. It reveals much of the community attitude toward school.

Teachers, parents and even neighbors, as well as the children themselves, have an influence on the school attendance and may well feel pleased with an excellent record.

The village school is now something that the town may well be proud of. The rooms are a delight from a teacher's standpoint, for they have excellent light and are roomy and airy, yet warm, comfortable and convenient. The teachers are doing some fine work and are striving to have a model school. It would please and help both pupils and teachers if more of the citizens would visit the school.

A school house and its grounds should in themselves be matters of instruction and culture. Pupils should be trained for today and the future, not the past, and their surroundings should be modern.

Recommendations

The average salary for elementary teachers in the State, according to the report just issued, is $1,023.96.

Moultonboro's average this year is $855, or nearly $200 less than the State average. The teachers who are satisfactory and competent and who remain another year should have substantial increase in salary. It is not quite fair for the town to take advantage of its local teachers who are worth more and who could obtain more in other towns.

The approach to the village school and the playground needs grading

Suitable playground equipment should be provided, such as teeter boards, giant strides, slides, etc.

Play activities may be among the best of educational influences.

A school year of 38 weeks so that a reasonable number of holidays may be taken and still have at least 180 school days. Moultonboro last year was about the average of the State, or 349 half days in session.

Respectfully submitted,

ERNEST W. SMALL,
Superintendent.

PERCY KELLEY,
HELEN HANSON,
F. S. LOVERING.

To the citizens of the School District of Moultonboro the School Board submit the following report:

Regarding repairs and painting the following has been done. At the New School the ceilings and walls in both rooms have been painted in colors approved by the State Board, which eliminate the eye strain caused by the white walls. The trimmings on the outside were painted, much improving the outside appearance of the building. On account of the exposed location which allows the ground to freeze unusually deep it was necessary to take up the entire drainage system and replace it eighteen inches deeper. At the Ambrose school the entire inside (which was in very bad condition) was painted two coats in approved colors, a new chimney built and a ventilating jacketed stove installed. It was necessary to build an entirely new roof over the toilet and connecting to the main building and shingle one side of the shed. The curtain fixtures were repaired and new curtains hung. At the Lower Neck school a new chimney has been built and a ventilating jacketed stove installed and some other minor repairs made.

Your school buildings are now in very good state of repair except that the Lower Neck and the Neck Road school houses would be greatly improved by painting on the outside. The New School house and the Ambrose school should be painted to preserve the wood. We believe it would be a boon to civic pride if the grounds at the new school could be graded and otherwise improved. Regarding the installation of steam heat will report that $870 was the lowest bid we could get. Therefore it was decided by the Board to purchase the material and make the installation which was done inside of the appropriation of $600. We are now burning coal at the Center Harbor school and at the New School. We believe it will prove more economical as few teachers are familiar with burning wood. We are extremely glad that owing to the five mill rate

which you voted at the last meeting we will not have to ask for the usual appropriation to cover the deficit but hope to finish the year with the balance on the right side. There seems to be a growing demand for the opening of the Neck Road school. Beyond doubt this will have to be done in the near future. This will make an added expense of about $800 per year. We believe in the wisdom and judgment of our Superintendent and consider we are extremely fortunate in the character and efficiency of our teachers. We believe that with the continued co-operation of parents and pupils good results will continue.

PERCY KELLEY,
HELEN M. HANSON,
FRANK S. LOVERING.
